

Here are some commonly asked questions about flights along with their answers. These are frequently encountered by travelers when booking, checking in, or managing their flights:

How early should I arrive at the airport before my flight?

- For domestic flights, it is recommended to arrive 2 hours before departure, and for international flights, 3 hours. This allows time for security checks, baggage drop-off, and boarding.

2. What is the baggage allowance for my flight?

- Baggage allowance varies by airline, but typically, for economy class, you are allowed one carry-on bag and one checked bag. The weight limit for checked baggage is usually around 23kg (50 lbs), and for carry-on, it's about 7-10kg (15-22 lbs).

3. Can I bring liquids in my carry-on luggage?

- Yes, but liquids must be in containers of 100ml or less, and all containers must fit into a 1-liter clear resealable plastic bag. This includes gels, creams, and aerosols.

4. What should I do if I miss my flight?

- If you miss your flight, contact the airline immediately. Some airlines offer rebooking options for a fee or free of charge depending on the fare class you booked. If the delay was due to a situation beyond your control (e.g., airport delays), airlines may try to accommodate you on the next available flight.

5. How do I change or cancel my flight?

- Most airlines allow changes or cancellations through their website or app. There might be a change fee depending on your fare class, or if your ticket is non-refundable, you may only receive credit for a future flight.

6. Why do flight prices fluctuate so much?

- Flight prices change based on demand, seasonality, availability, and how close you are to the departure date. Airlines use dynamic pricing algorithms to adjust prices in real-time.

7. Can I travel with my pet on the plane?

- Many airlines allow pets to travel in the cabin or as checked baggage. The rules vary by airline, and pets must be in a carrier that fits under the seat. Always check the airline's pet policy in advance.

8. What is online check-in and how does it work?

- Online check-in allows you to check in for your flight via the airline's website or mobile app. You can usually check in 24-48 hours before your flight, choose your seat, and download or print your boarding pass.

9. What happens if my flight is delayed or canceled?

- If your flight is delayed, the airline will notify you of the updated schedule. For cancellations, airlines are typically required to either rebook you on the next available flight or offer a refund. Compensation rules depend on the country and airline.

10. What documents do I need to bring for an international flight?

- You need a valid passport, and in some cases, a visa. Ensure that your passport is valid for at least six months beyond your travel date. Some countries also require proof of onward travel or a return ticket.

What airlines fly domestically within Nigeria?

Below is a list of all of Nigeria's airlines which operate internal flights:

[Arik Air](#)

Arik Air operates one of the most extensive networks in Nigeria, including domestic, regional and international flights. Arik Air has two major hub airports: Murtala Muhammed International Airport, in Lagos, and Nnamdi Azikiwe International Airport, in Abuja.

[Air Peace](#)

Air Peace Airways is a private Nigerian airline, based in Lagos. The airline, which is dedicated to providing a high-class experience for passengers but at affordable prices, serves all the major cities of Nigeria, as well as flying to several West African destinations and the Middle East.

The airline also has a subsidiary, Air Peace Hopper, which was founded in 2018 and is used for smaller domestic and regional routes in Nigeria.

About Air Peace

Air Peace is a Nigerian airline offering scheduled passenger and charter flights across Nigeria and beyond. The airline is based at Murtala Muhammed International Airport, Lagos (LOS), and flies [domestically within Nigeria](#). It also offers a small number of international services to other parts of Africa.

Popular domestic routes include [Lagos to Kano](#), [Lagos to Benin City](#), and [Lagos to Abuja](#), while some of its international services connect Lagos to cities like Sharjah, Johannesburg and Accra, among others. Although many of its international destinations are still within its long-term route network, it has temporarily suspended a number of its flights, both domestic and international.

Air Peace has a long-term goal to expand its route network to fly to more destinations within Nigeria, as well as major cities internationally. The airline has stated that along with giving Nigeria better connectivity across the world, one of the major ideas behind the genesis of Air Peace is to create more jobs for people in Nigeria.

[Aero Contractors](#)

Aero Contractors, (known locally as 'Aero') is a state-owned and Nigerian airline, based at Murtala Muhammed International Airport, which serves Ikeja, the capital of Lagos State.
